Will:

Thanks for the note. I have been in DC since Monday, but am leaving this afternoon so will be unable to make a meeting this week. I will be back either next week or the following one. May I reach out to you tomorrow to try and schedule something?

Thank you

Kate

Background on the company

The information contained in this e-mail message is intended only for the personal and confidential use of the recipient(s) named above. If you have received this communication in error, please notify us immediately by e-mail, and delete the original message.

VNGsm

VNG is building a network of retail compressed natural gas fueling locations to serve light-duty vehicles.

Our mission is to bring a cheaper, cleaner, domestic transportation fuel to all U.S. drivers.

Overview

- VNG delivers customer satisfaction and best fueling experience for LD NGVs
- Large market opportunity: Light-duty ~75% of total fuel (\$320 billion)
 - Lower/more stable-priced, cleaner and domestically abundant fuel
 - Optimal solution for most popular/profitable vehicles – light-trucks (e.g., pick-ups)
 - Environmental benefits and pathway to Renewable Natural Gas (RNG)
- VNG build-out strategy of fleet fueling, gasoline station co-location and grants reduces capital risk while generating attractive returns
- Major tailwinds: New Administration receptivity to natural gas, EPA CAFE regs, RNG, low-NOx engine
- ~35 LD NGV models available from OEMs & upfitters (e.g., F150 most popular vehicle)

VNG Background

- Operational in top-tier markets – Dallas, Houston, Milwaukee & Philadelphia
- Growth platform over next several years in new/existing markets with national fleet customer (e.g., California opportunity)
- Multi-market agreement with large light-duty fleet with large NGV fleet
- Long-term agreements with leading retailers (Circle-K) and major brand approvals (e.g., Exxon, BP, etc.)
- Robust regulatory and legislative initiatives supporting and accelerating NGV market development
- Attractive financial attributes: Capital efficient, no inventory, no station staffing and working capital cash inflow

VNG Leadership

- Founded by proven entrepreneurs of multi-billion dollar companies
 - **Harvey Lamm** — Subaru Founder & former CEO; Sales of \$2 billion and market value of \$800 million. 55% ROE, 39 straight quarters of EPS growth
 - **Bob Annunziata** — Teleport founder & former CEO; one of first CLECs in telecom industry, sold to AT&T for \$11 billion. Former Global Crossing CEO; \$4 billion sales, grew employees from 150 to 14,000 in 13 months
 - **Ronnie Lubner** — representing London-based family industrial group, Chairman of Belron International, world's largest replacement auto glass manufacturer (Safelite in US)
- Experienced management across major disciplines – fleet sales, retailer sales, station development & operations, and regulatory
- Highly-regarded and active advisory board with extensive automotive, natural gas, retail gasoline stations, regulatory, and financial expertise

VNG Strategy

- Provides retail CNG fueling within existing gasoline stations
 - Capital efficient - no site acquisition costs and quickest to market
- Targets light-duty fleets as initial customers to reduce risk
 - Early adopters with high fuel use, costs and sustainability mandates
 - Availability of in-place fleet NGVs to fuel
- Leverages all auto sales channels to greenlight station
 - Coordinated efforts with OEMs, FMCs, dealerships, and upfitters
 - Aggregate demand before establishing or expanding fueling network
 - VNG brings customer to the station – *not reliant on “drive-by” traffic*
- Enhance returns with alternative financing - grants and project financing

Complementary Regulatory Initiatives

- Record of VNG regulatory/legislative success supports market development
 - Worked with NHTSA/EPA in 2012 to achieve incentives for NGVs in CAFE & GHG regulations (VNG comments cited in regulations)
 - Alternative Fuel Vehicle Development Act – amendment to National Defense Authorization Act in late-2014 (“NHTSA fix”)
 - Regulatory Parity for NGVs – amendment to Highway Bill (bi-fuel usage 95.4% of the time as opposed to previous 50%)
- Continued pursuit of regulatory initiatives
 - Reinstitute Petroleum Equivalency Factor for NGVs
 - Eliminate 2:1 tank ratio requirement for bi-fuel NGVs
 - Federal \$7,500 tax credit for NGVs
 - Full-size pickup truck credit bonus for NGVs
 - NGV bi-fuel production requirements of OEMs
 - Enhanced GHG value for NGVs from RNG

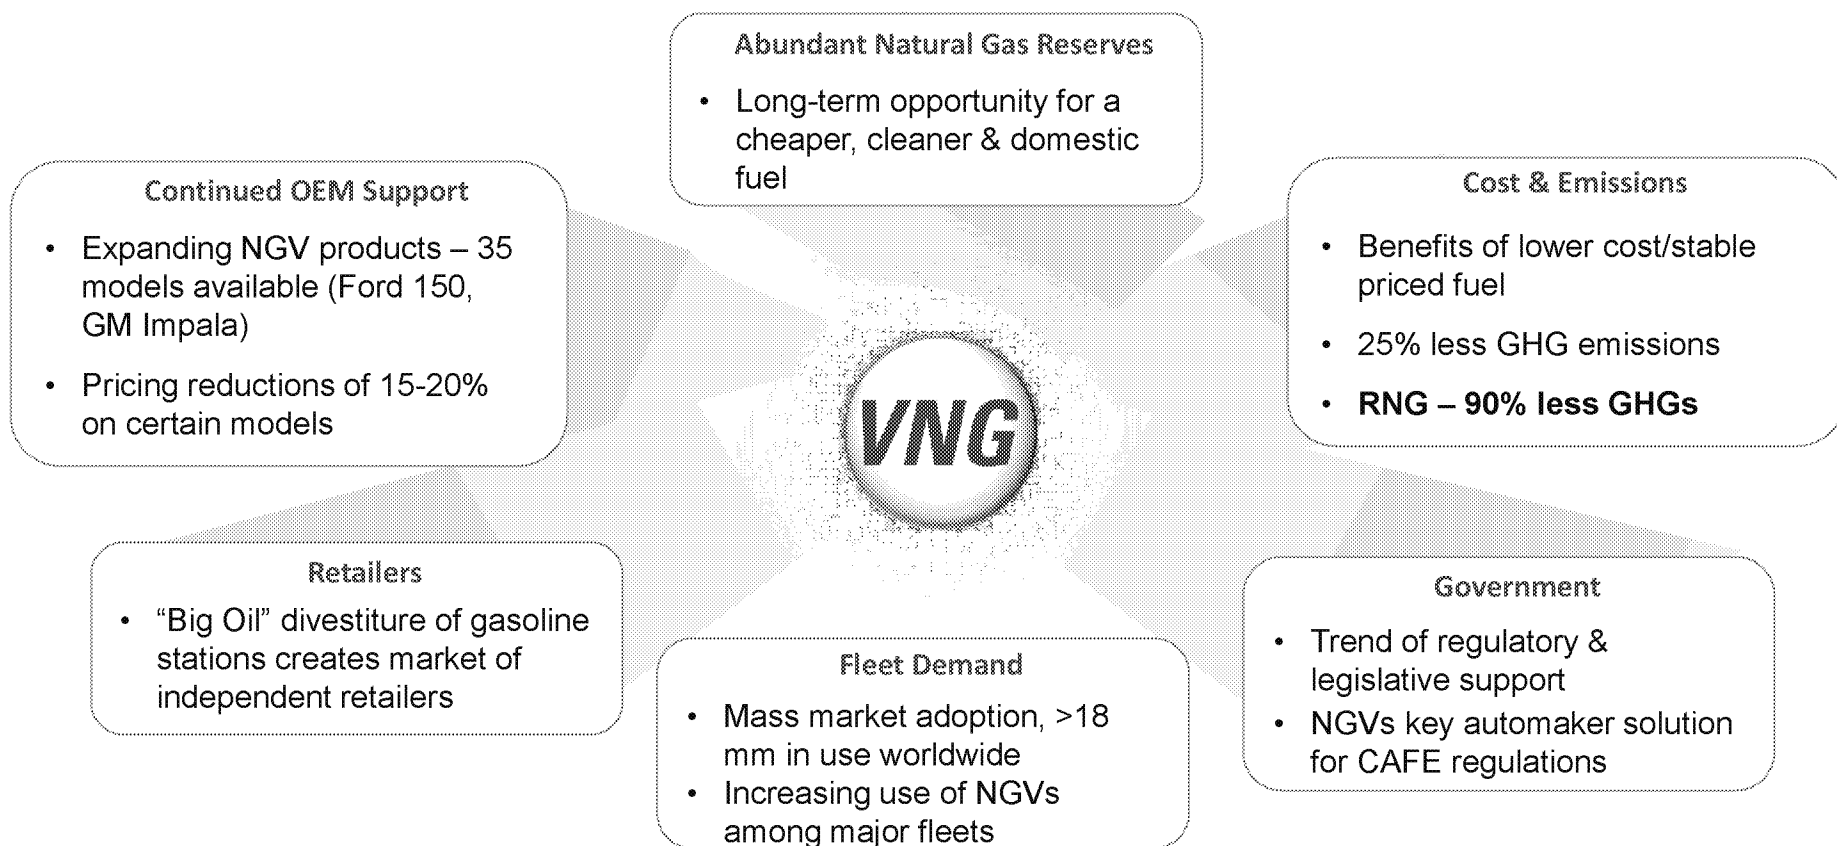

VNG Current Initiatives

- Expansion opportunities in current/new markets supported by national fleet
 - California opportunity with anchor fleet customer
 - Initial Southern CA initiative with follow-on into Northern CA, Chicago, Atlanta & others
 - Initial SoCal stations are under agreement, with anchor fleet, grants and available for project lease finance programs (both stations serve light/medium/heavy-duty vehicles)
- Pursuing leveraging various alternative forms of financing programs
 - California station grants (2 awarded)
 - TX grants (4 awarded for ~50% of install cost)
 - Tariff-based program
- Pursuing multiple strategic partnerships:
 - Joint regulatory effort with leading industry manufacturer
 - Financing discussions with strategic investors

Why Now

- A convergence of energy, economic, auto industry, and government support creates a significant opportunity for NGV market growth in the U.S.

The VNG Difference

- VNG provides seamless transition to CNG locating where drivers already fuel: **within gasoline stations**
 - Offers a familiar experience comparable to liquid fuels
 - Premium locations with **full-service retail C-stores**
 - Geographic flexibility to serve large fleet customers
- Unlike current CNG fueling serving heavy-duty trucks, **VNG meets the needs of light-duty drivers**
 - ~900 public CNG stations, mostly at industrial, refuse municipal and airport sites (vs. 150k gasoline stations)
 - Facilities inconveniently located, not supporting fleet productivity and no retail amenities
 - Fueling environment for light-duty NGVs, not behind heavy-duty vehicles

VNG Ensures Customer Satisfaction

- VNG ensures optimal CNG fueling experience
 - Fast fill relative to gasoline fueling experience
 - Dispenser accepts of all major credit and fleet cards
 - Pistol group nozzle similar to gasoline fueling experience
- High operating uptime to assure fueling
 - **24x7** monitoring of equipment data to ensure maximum operating uptime
 - **24x7** call center support for technician dispatch and customer service support
 - **24x7** video surveillance for remote support
 - **Rapid incident response** – VNG field ops team and 3rd party support on call 24x7

Financing & Use of Proceeds

- Since inception, VNG has raised ~\$20 million equity and ~\$5 million grant funding
- Established critical foundation
- Built core team of professionals across all key business areas
- Established strong position with key automotive sales channels and develop relationship with key anchor fleet
- Create an improved regulatory environment and institute legislation to better support light-duty NGVs
- Install initial stations in major markets in for anchor fleet

VNG Management Team

- Founder of Teleport Communications Group ("TCG"), one of first and largest competitive local exchange carriers in the telecommunications industry.
- CEO of Global Crossing, in 13 months, increased employee base from 150 to 14,000 and achieved annual revenues of \$4 billion.

Bob Annunziata, *Co-founder*

- Founder and former Chairman and CEO of Subaru of America; during 23-year tenure undertook market leading strategic initiatives including the introduction of all-wheel drive to passenger cars.
- Achieved highest ROE of any publicly-traded automobile company at 55%, along with 39 quarters of continuous earnings growth.

Harvey Lamm, *Co-founder*

- **Robert Friedman** – *COO*: Formerly with Lazard Frères & Co and one of several founding partners of Invemed Catalyst Fund a private equity fund.
- **Larry Highbloom** – *CAO*: Founder, CEO and President of VINtek, an automotive electronic lien titling company recently sold to Dealertrack Technologies (NYSE: TRAK)
- **Bob Atkinson** – *Chief Regulatory Officer*: Former CRO of Teleport and AT&T Business Services; Director of Policy Research for CITI at Columbia Business School
- **Bill Mitchell** – *Vice President of Operations*: Previously senior manager, Mobil Oil; experience in all aspects of petroleum fuel operations
- **Jack Stull** – *Director of Regional Field Sales*: Former Territory Manager of Lehigh Gas; extensive downstream petroleum, c-store and wholesale distribution experience
- **Jamie Stovall** – *Fleet Sales Manager*: Extensive fleet sales experience as Fleet Sales Manager for Pep Boys
- **Tracy Reyle , Esq.** – *General Counsel*: Previously Member, Corporate Law at Cozen O'Conner; practice areas of M&A, JVs, commercial contracts, & capital structuring
- **Renee Ebersole** – *Marketing Consultant*: Current director of sales & marketing at Morrison Cogen, a full-service public accounting, tax, and business consulting firm
- **Tom Sewell** – *Equipment & Installation Advisor*: Expertise in equipment, design, development, installation and construction of over 200 CNG fueling stations

Advisory Board

Bob Atkinson: Mr. Atkinson has significant experience in regulatory matters as Chief Regulatory Officer of Teleport and AT&T Business Services. He also serves as the Director of Policy Research for the Columbia Institute for Tele-Information (CITI) at the Columbia Business School.

Bob Catell: Mr. Catell served as the Chairman, President, and CEO of KeySpan Energy Corp. since 1997. He served as the President and Chief Executive Officer of Brooklyn Union Gas from 1991 to 1996 and also served as its Chairman and CEO until May 1998. Mr. Catell founded Alberta Northeast Gas Inc. and serves as its Chairman of the Board.

Tom Cunningham: Mr. Cunningham served as a Director of Remarketing Strategy for Ford Motor Company, where he was responsible for the total design and implementation of Ford's wholesale used vehicle sales strategy in the United States for all the Ford and Ford-affiliated brands until 2002.

Wallace Parker: Mr. Parker served as CEO of Keyspan Services from 2001 to 2007. During this time, he had full P&L responsibility for the largest business group of Keyspan Energy Corp. (\$5 billion in revenue).

Joe Petrowski: Mr. Petrowski is the current Chairman of Gulf Oil. From 2005-2013, Mr. Petrowski was the CEO of Cumberland Gulf Group (8,000 employees and \$13 bn in annual revenues). Earlier in his career, Mr. Petrowski was the President of Louis Dreyfus North America. Mr. Petrowski currently serves on the board of South Jersey Industries, a publicly held energy services holding company for a utility (South Jersey Gas) and other non-regulated businesses.

J. David Power: Mr. Power was the founder, Chairman and CEO of J.D. Power and Associates, one of world's premier customer survey companies. Its clients include virtually every automotive manufacturer and importer serving the U.S. market.

John Scarpati: Mr. Scarpati previously served as CFO of Teleport for more than 15 years. He subsequently was appointed as CFO of AT&T Business Services Group (\$22 billion in revenue). Thereafter, he was appointed Chief Administrative Officer of Global Crossing.

John Smith: In his 42+ years with GM, Mr. Smith was responsible for leading the turnarounds of the Cadillac (\$8 billion revenue) and Allison Transmission (\$2 billion revenue) businesses, as well as for developing GM's restructuring plans for the U.S. Treasury. Mr. Smith also served as GM's first global product planning leader.

Natural Gas Vehicles (NGVs): The Common Sense Solution To Achieving Emissions Reduction Compliance At Low Cost and Low Risk

NGVs ideally suited to help pickups, light duty trucks reach 2025 emissions goals

- Light duty trucks face biggest compliance challenge, are critical to Big Three future
- EVs not an option – batteries too expensive, too heavy for larger vehicles
 - NGVs are proven: Ford F150, Chevy Silverado, Dodge Ram

Correcting NGV incentives is straightforward – and justified

- No consideration of NGV technology in 2016 Technical Assessment Report despite availability of abundant domestic fuel and vehicle technology
 - Game-changing Renewable Natural Gas (RNG) delivers more than 85% lifecycle emission reductions
- Restore pre-2015 “0.15 divisor” to harmonize EPA with statutory CAFE incentives,
 - Parity with EV incentives: just as EV incentives reflect renewable energy, restoring 0.15 divisor for NGVs would reflect emissions benefits of RNG (85%)
 - Would allow OEMs to easily meet 2025 targets for pickups
- Parity: eliminate arbitrary driving range requirement imposed on bi-fuel NGVs
 - Plug-in hybrids have no requirements despite much shorter electric range
- Provide NGV pickups with same emissions credits as “Strong Hybrids”
 - Eliminate minimum penetration for NGV pickup incentives: NGVs as 10% of all pickups not immediately feasible for alt fuel like natural gas

Additional opportunity for smarter regulations: encourage retrofits

- Retrofitting deployed vehicles with natural gas reduces emissions of existing fleet
- Build on NGV retrofit successes in Oklahoma, greatly expand benefits of rules
- Allow converters to receive credits based on vehicle’s remaining useful life, sell/transfer to OEMs

Restoring parity between NGVs and EVs, and between EPA and NHTSA, will provide automakers much-needed compliance flexibility for light trucks and pickups – and by making these changes effective immediately, we can start building this industry today.

George –

Thank you very much for reaching out to me. We would like this meeting to focus on the incinerator issue, but I wanted to ask whether it would be possible to have conference call capability so that one of our Alaska folks could call into the meeting. If it is possible, please forward the conference information.

Thank you.

Subject: [EXTERNAL] EPA Meeting (7/19)

Mr. Avery,

I am with the Office of Policy at the EPA. I understand you would like to discuss the Small Incinerators Issue on Wednesday and we have that noted, but I was wondering if there were any additional topics or policies you would like to discuss. If so, let me know and I can pass that information along.

Thanks,

Max Lopez

This sounds perfect. Thank you again!

Please note that building security can take 10 or 15 minutes to get through. We will be ready to roll at 1, just in case you all are on the early side.

Megan

Megan,

Thank you for this information. We will let you know if any questions come up for us. Otherwise, Samantha will plan to be there at 1:15 pm on Wednesday, talk for about 10 minutes, then take Q&A. Sarah Rees will be there to facilitate conversation. They will have to leave around 2 pm.

Best,
Will

Will –

Thank you again for reaching out yesterday. We are very much looking forward to Samantha and others coming to speak to the Group next week by video conference. Please find attached a list of the members that will be participating in the video conference, and draft agenda for the meetings.

My secretary, Sam Freck (cc'ed here), and one of our senior partners, Molly Cagle (<http://www.bakerbotts.com/people/c/cagle-molly>), will be in our offices to host Samantha and her team. The discussion with Samantha is set to kick off at 1:15 eastern, and she will be speaking to the members of both our Air and Waste/Water/Wildlife subgroups. If you take a look at our agendas, please note that all times are in **central** time. If you have any questions about our groups and the format, please do not hesitate to let me know.

Thank you again for helping to coordinate these efforts.

Best,
Megan

Will,

My apologies for not getting back to you. The delay has been because I have been trying to get an answer from one of my colleagues about what time the call would take place today. As of now, I still have not been able to get in touch with him.

I'll be sure to let you know as soon as I hear. If today doesn't work for either you or Brittany, we will find another time to connect.

Thanks.

Dan

Subject: Pre-call for Reg Reference Meeting Presenters on 7/10

Hi Will,

We wanted to have a call with presenters for the upcoming meeting (which is looking like July 24, at noon – site TBD) on Tuesday, July 10. Would Brittany be available to participate in the afternoon? The call shouldn't be more than 30 minutes and would serve to give more information to the presenters on the group and the kind of information we are seeking on the Reg Reform Task Forces.

Subject: Next Reg Reference Group Meeting - Monday, June 25

Greetings,

The next meeting of the Reg Reference Group will be on Monday, June 25, from noon to 1:30 PM. The meeting will take place at the American Action Forum ([1747 Pennsylvania Ave. NW](#), Fifth Floor). At this meeting we will more closely examine regulatory trends to this point in the Trump Administration. Our agenda includes presentations from:

- The **Mercatus Center at George Mason University**, presenting research focused on quantifying the stock and flow of federal regulations in 2017;
- The **George Washington University Regulatory Studies Center**, featuring research on federal agency spending and personnel devoted to developing, administering and enforcing regulation (the [Regulators' Budget](#));
- The **American Action Forum**, discussing a progress report on how executive agencies are meeting their regulatory cost caps set by the Office of Management and Budget.

Lunch will be provided. After the program, please share any announcements, publications, events, or other items of interest with the group.

Please RSVP for this event by 5:00 PM on Thursday, June 21, to Dan Bosch (dbosch@americanactionforum.org).

Sincerely,

The Organizers

Subject: Invitation - Panel of Regulatory Reform Officers to Headline Reg Reference Group Meeting - 7/24/18

Dear Dan,

We're excited to announce that next week's Reg Reference Group meeting will feature a panel of regulatory reform officers, who will discuss the successes and challenges in implementing the Administration's regulatory budget. The following agency leaders will discuss the work of their task forces:

Brittany Bolen, Environmental Protection Agency
Joo Chung, Department of Defense
James Owens, Department of Transportation
Brent McIntosh, Department of the Treasury

This off-the-record meeting will take place on **Tuesday, July 24, from 12 p.m. to 1:30 p.m. in Russell Senate Office Building Room 428A**. Participants will have an opportunity to share information and discuss issues following the presentation.

Boxed lunches will be provided. So that we can order the right amount of food, we ask that you RSVP to Mike Jayne, at mjayne@mercatus.gmu.edu, by 5:00 p.m. on Friday, July 20.

Best regards,

The Organizers

Hi Dan - thanks so much for reaching out. We really appreciate opportunities to hear directly from regulated entities, and you guys have provided us with very helpful and constructive comments.

Brittany Bolen will be happy to speak at your conference. Brittany is the Deputy Associate Administrator at the Office of Policy, and also a member of EPA's Regulatory Reform Task Force. I've cc'd Brittany on this email; please coordinate with Will Lovell (also cc'd) regarding logistics, etc. And if there is anything else you need from me, please let me know how I can be of service!

Cheers,
Sarah

Subject: FW: American Foundry Society EHS Conference

Good afternoon Sarah,

I wanted to forward this email to you from Jeff Hannapel who is one of the American Foundry Society (AFS) representatives in Washington, DC. The AFS puts on an EHS Conference every year and this year the conference will be held in Birmingham, AL from October 31st thru November 2nd. On Wednesday November 1st we are hoping to have someone from USEPA give our membership a presentation on the Regulatory Reform process within the agency. As you note from Jeff's email, we as a trade association have provided comments to USEPA on two occasions regarding regulatory reform and we have also provided comments to the Department of Commerce.

Since we mentioned (and attached) the comments that we made to USEPA at your request, I thought I should make you aware of our request to the agency for someone to speak at our conference. Our membership is very interested in learning more about how regulatory reform is being implemented and a presentation by someone from the Office of Policy would be well received by the audience. I hope you will assist us in making this happen.

Finally, I wanted to remind you that AFS is committed to providing additional feedback regarding the air issues that were the subject of our July 29th letter to you. We have a number of industry experts within our EHS Division that are willing to meet with subject matter experts from USEPA to provide more detail and examples surrounding the comments that were in our letter. I made a similar offer to Patrick Davis via voice mail in August.

Please let us know how we can follow up on our meeting of June 20th and our letter of July 29th.

Thanks,
Dan Oman

Re: Request to Speak at American Foundry Society EHS Conference

Dear Ms. Dravis:

On behalf of the American Foundry Society (AFS), I would like to invite you to present a review and update on EPA's regulatory review process at the AFS Environmental, Health and Safety (EHS) Conference in Birmingham, Alabama on November 1, 2017. AFS has been active in providing input to EPA on the regulatory reform process. For your reference, I

have attached a copy of the regulatory reform comments that AFS submitted to EPA in May. In addition, representatives of AFS met with Administrator Pruitt's office in June and provided a follow up letter on regulatory reform issues in July, which is also attached. The current regulatory reform efforts appear to provide opportunities to minimize regulatory burdens on U.S. manufacturing, while continuing to promote superior environmental protection. We would be honored if you could make a presentation that focused on the regulatory reform process and how the agency is managing the process.

The annual AFS EHS Conference is attended by EHS professionals in the metalcasting industry and highlights the most critical EHS issues facing the metalcasting industry. We expect to have over 100 participants at this year's conference that is scheduled from October 31 to November 2. I would be happy to provide you with additional details on the AFS EHS Conference.

I hope that you or someone from your office would consider joining us at the AFS EHS Conference in Birmingham. If I can provide any additional information or answer any questions, please contact me by email or phone at 202-257-3756. I look forward to hearing from you soon.

Best regards,

Jeffrey S. Hannapel

I wanted to share with you the email invitation that went out to our group this morning. It contains more info on the meeting, including room number and the other participants.

As always, let me know if you have any questions. At your convenience, if you can let me know if anyone other than you and Brittany are attending with you from EPA I can make sure they are included in the RSVPs.

Subject: Invitation - Panel of Regulatory Reform Officers to Headline Reg Reference Group Meeting - 7/24/18

Dear Dan,

We're excited to announce that next week's Reg Reference Group meeting will feature a panel of regulatory reform officers, who will discuss the successes and challenges in implementing the Administration's regulatory budget. The following agency leaders will discuss the work of their task forces:

Brittany Bolen, Environmental Protection Agency
Joo Chung, Department of Defense
James Owens, Department of Transportation
Brent McIntosh, Department of the Treasury

This off-the-record meeting will take place on **Tuesday, July 24, from 12 p.m. to 1:30 p.m. in Russell Senate Office Building Room 428A**. Participants will have an opportunity to share information and discuss issues following the presentation.

Boxed lunches will be provided. So that we can order the right amount of food, we ask that you RSVP to Mike Jayne, at mjayne@mercatus.gmu.edu, by 5:00 p.m. on Friday, July 20.

Best regards,

The Organizers

Subject: RE: Information for Tuesday's Reg Reference Group Meeting

Dan,

Per our call, please see the following bio:

Brittany Bolen was recently appointed as the Associate Administrator (AA) for the Office of Policy (OP), after serving as the acting OP AA since April 2018. In her role, Brittany oversees the primary policy arm of EPA, providing multi-disciplinary analytic skills, management support, and special expertise in multiple areas. Before moving to her current role, Brittany served for a year as the Deputy Associate Administrator for OP. During her time at EPA, Brittany has played a critical role in leading OP, particularly as the office went through a major reorganization this last spring. Additionally, Brittany serves on EPA's Regulatory Reform Task Force and has testified before Congress on the agency's regulatory reform efforts. Prior to joining EPA, Brittany worked on the Senate Republican Policy Committee, the Senate Environment and Public Works Committee, the U.S. House of Representatives Committee on the Judiciary, and the U.S. House of Representatives Committee on Oversight and Government Reform. Brittany holds a J.D. from the George Mason University School of Law and a B.A. from the University of Florida.

Whenever you can, please provide the list of current RSVPs.

Thanks,
Will

Subject: Information for Tuesday's Reg Reference Group Meeting

Brittany,

Thanks for agreeing to participate in our meeting on Tuesday. I wanted to send along a few bits of information that will be helpful as you prepare.

Time and Location:

The meeting will take place on Tuesday, July 24 from 12-1:30 PM. If you can't stay for the entire thing, that's okay. Please just let me know if you plan to leave early so we can adjust our schedule to allow some questions by the audience. We'll likely cut off questions by 1:20 so we can move onto some "good of the order" items.

Room: 428A Russell SOB (Small Business Committee Room)

Lunch will be available at 11:45 if you want to eat before presenting.

Presentation:

We're asking presenters to speak for 8-10 minutes, but less is certainly okay. We kindly ask that you limit the presentation to 10 minutes so we can ensure time for Q&A.

The other presenters will be:

Joo Chung, Department of Defense

James Owens, Department of Transportation

Brent McIntosh, Department of the Treasury

Attendees: I told Will I would share a list of RSVPs on Monday. But in general, it consists of experts from various conservative-leaning think tanks and organizations in DC with a good knowledge of how the regulatory process works and can be improved. Also, to be clear the meeting is entirely off the record.

One request: If possible could you send me a short bio that we can use to introduce you?

Looking forward to having you join us on Tuesday. Please don't hesitate to contact me directly, or have Will get in touch.

Subject: Meeting w/EPA

Good evening, Jamie,

I am compiling materials in preparation for your group's meeting with EPA. Could you please provide any read-ahead materials for us?

Thank you,

Will Lovell

Megan,

Thank you for this information. We will let you know if any questions come up for us. Otherwise, Samantha will plan to be there at 1:15 pm on Wednesday, talk for about 10 minutes, then take Q&A. Sarah Rees will be there to facilitate conversation. They will have to leave around 2 pm.

Best,
Will

Will –

Thank you again for reaching out yesterday. We are very much looking forward to Samantha and others coming to speak to the Group next week by video conference. Please find attached a list of the members that will be participating in the video conference, and draft agenda for the meetings.

My secretary, Sam Freck (cc'ed here), and one of our senior partners, Molly Cagle (<http://www.bakerbotts.com/people/c/cagle-molly>), will be in our offices to host Samantha and her team. The discussion with Samantha is set to kick off at 1:15 eastern, and she will be speaking to the members of both our Air and Waste/Water/Wildlife subgroups. If you take a look at our agendas, please note that all times are in **central** time. If you have any questions about our groups and the format, please do not hesitate to let me know.

Thank you again for helping to coordinate these efforts.

Best,
Megan
